

Manufacturing Engineer Intern

AxoGen Overview

AxoGen is a regenerative medicine company with a portfolio of proprietary products and technologies for peripheral nerve reconstruction and regeneration. People suffer traumatic injuries or undergo surgeries that impact the function of their peripheral nerves daily. Damage may cause loss of function and feeling. AxoGen is bringing the science of nerve repair to life with its Avance[®] Nerve Graft which AxoGen believes is the first and only commercially available allograft for bridging nerve discontinuities, AxoGuard[®] Nerve Connector, a coaptation aid allowing for close approximation of severed nerves, and AxoGuard[®] Nerve Protector that protects nerves during the healing process.

Summary

Exposure to all functional areas of a public regenerative medicine company including, but not limited to, marketing, operations, product development, sales and customer service.
