

# advances and best practices for **extremity nerve management**

**October 25, 2025 • Charlotte, NC**

Location: Charlotte Marriott City Center  
100 West Trade Street,  
Charlotte, NC, 28202

A one day educational program focused on advanced surgical techniques in upper extremity procedures addressing complex cases, while exploring approaches in nerve repair techniques and case-based discussion.

## **program objectives**

Stay current with the newest evidence-based clinical data

Understand the algorithms for nerve repair

Learn about nerve protection and repair technologies and science

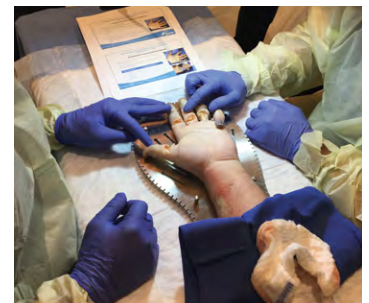

Practice microsurgical skills in a hands-on cadaver lab

Learn from experienced faculty through peer-to-peer case-based discussions and relevant clinical applications

Gain insights from clinical faculty on practical surgical approaches

practice nerve repair techniques

evaluate algorithm in  
cadaveric setting

## **invited faculty**

**Matthew Iorio, MD**, Colorado School of Medicine

**Justin Zumsteg, MD**, Orlando Health

**Ivan Ducic, MD, PhD**, Washington Nerve Institute,  
Axogen Chief Medical Officer

participate in interactive  
case studies

Sponsored by:

# advances and best practices for **extremity nerve management**

## agenda

**Saturday, October 25, 2025** (9am - 3pm)

### Explore the science and clinical outcomes

Current understanding of the biology of nerve repair and the role it plays in the clinical management in upper extremity trauma

Learn about historical evolution of nerve repair and contemporary management techniques for nerve injuries

Participate in case-based presentations and discussion with nerve experts

### Cadaveric simulation of injury and repair

Digital nerve injuries and complications including transected nerve and neuroma management

Non-transected nerve injury management

Advanced techniques such as nerve transfers

**To register**
