

contemporary techniques in
**lower extremity
nerve management**

October 10, 2026

Location: Le Meridien Downtown Denver
1475 California St, Denver, CO 80202

A one-day program focused on surgical techniques in lower extremity procedures, highlighting contemporary nerve management approaches and case-based discussions.

program objectives

- Stay current with the newest evidence-based clinical data
- Understand the algorithms for techniques in nerve management
- Learn about nerve protection and repair technologies and science
- Practice microsurgical skills in a hands-on cadaver lab
- Learn from experienced faculty through peer-to-peer case-based discussions and relevant clinical applications
- Gain insights from clinical faculty on practical surgical approaches

invited faculty¹

Edgardo Rodriguez-Collazo, DPM, Ascension Saint Joseph Hospital - Chicago

James Wilton, DPM, Valley Regional Hospital

Craig Thomajan, DPM, Austin Foot and Ankle Specialists

Ivica Ducic, MD, PhD, Washington Nerve Institute, Axogen Chief Medical Officer

Sponsored by:

contemporary techniques in **lower extremity nerve management**

agenda

October 10, 2026 (8:00 am - 3:30 pm)

Explore the science and clinical outcomes

Current understanding of the biology of nerve repair and the role it plays in the clinical management of lower extremity nerve injuries

Learn about surgical techniques for patients with symptomatic neuroma

Participate in case-based presentations and discussion with nerve experts

Cadaveric simulation of injury and repair

Anatomical exploration of lower extremity nerves

Management of lower extremity nerve compression injuries

Nerve management techniques following neuroma excision
